

PUBLIC MONEY IS A PUBLIC TRUST.

It belongs to working people — not to those who use it to buy political protection, enrich the powerful, or undermine the democracy we depend on.

We are already living with the consequences of what **corporate-funded authoritarianism** looks like.

These are not abstractions. They are the direct result of a political project that **corporations have chosen to fund** through donations, sweetheart deals, and tribute **paid to those in power in exchange for trading our communities' well-being** for their own profits.

REAL CONSEQUENCES.

CHILDREN JAILED AT THE BORDER

MILITARY DEPLOYED IN OUR CITIES

VOTING RIGHTS DISMANTLED

COMMUNITIES SURVEILLED

THE FREE PRESS ATTACKED

PUBLIC HEALTH THREATENED

PROGRESS ON EQUITY ERASED

TO OUR ELECTED AND CORPORATE LEADERS, WE SAY:

NOT WITH OUR MONEY.
NO GRIFT. NO GIFTS. NO DEALS.

We need you in this fight. Every day, public money flows through decisions that shape our communities — and the corporations are already in the room cutting the deals. It's time we made them answer for it. Stand with us to hold them accountable.

STAND WITH US.

OUR DEMANDS: STOP THE GRIFT.

Use Pensions, Procurement & Purchasing for Our Communities.
Cities, states, and public institutions control three of democracy's most powerful economic tools: what companies they invest in, what they buy, and who they pay. These levers belong to the people.

- *Stop doing business with companies funding the dismantling of democracy. Redirect public dollars to businesses that strengthen communities.*

No Pay-to-Play. No Tribute.
When corporations pay powerful people to leave them alone, that is a shakedown. When corporations do it by choice, they are complicit. In a democracy, no leader should sell political favors.

- *We call on corporations to stop bending the knee — stop the pet-project donations, the deals, and the deference that prop up authoritarian power.*

Protect Our Money. No Billionaire or Corporate Bailouts.
Our retirement savings are not a slush fund for the wealthy. When the next bubble breaks — and it will — working people will not be left holding the bag. Not this time.

- *Apply rigorous fiduciary standards to public pension investments. Refuse speculative schemes that reward billionaires and corporations over beneficiaries.*

Stop Building the Surveillance State.
Facial recognition in our neighborhoods, location data sold to enforcement agencies, social media monitoring used to target political speech — these are tools of control, not neutral products.

- *Reject government contracts that put surveillance tools in the hands of those who would use them against the people.*

Protect the Vote. Defend Democracy.
Restricting ballot access, intimidating voters, gerrymandering, and undermining confidence in election results are tools of authoritarianism. Corporate funding of those politicians makes corporations complicit.

- *Corrupt politicians and corporations are working to restrict voting access and deny legitimate election results. Companies cannot profit from democracy while funding its destruction.*

JOIN US IF YOU BELIEVE:

DEMOCRACY IS NOT FOR SALE.
PUBLIC MONEY IS PUBLIC TRUST.
COMMUNITIES ARE NOT COLLATERAL.

NOT WITH OUR MONEY
